CellBlock FCS offers intelligently engineered solutions to challenging battery safety problems.

Engineered and Tested Beyond Compliance™

All CellBlock FCS products are designed to exceed current regulatory requirements. This ensures your investment will comply now, and in the future.

Self-deployed CellBlockEX Extinguishing System

This mineral suppression granulate is housed in the lid of our cases. Heat and flame cause it to release, immediately working to extinguish the flame and prevent propagation.

Featuring the Highest ECRs in the Industry.

Our battery cases feature Higher Energy Containment Ratings (ECRs) to allow you to ship and store with confidence.

FCP Technology: CellBlock's Patented Composite Lining.

"FCP" stands for Fire Containment Panel and it provides extreme thermal and ballistic protection to our battery cases. This lightweight panel has passed rigorous third party testing.

Applications

Emergency response containment as part of safety protocols for thermal runaways.

Safe on-site storage of high-energy batteries.

Safe and compliant transportation of batteries, including damaged, defective, and prototype.

Ship UN rated and Special Permit 20549 and 21442 authorized.

Gas Mitigation System

Effectively mitigate gas and explosive pressure caused by thermal degeneration of batteries.
