

Packaging for Damaged, Defective and Recalled (DDR) Batteries and Devices

CellSafe® Pails and Drums

DOT SPECIAL
PERMIT 20549

CA EQUIVALENCY
CERTIFICATE SU 13896

Ship with Confidence.

CellSafe® Battery Pail and Drum Kits are a safe solution for the collection, storage and shipping of lithium-ion batteries. Using CellBlockEX technology, this packaging provides reusable, reliable protection from thermal runaways.

- DOT Special Permit 20549 and Equivalency Certificate SU 13896 authorized.
- P908 tested and compliant.
- The safest bulk transport solution for damaged and spent batteries.

Cost Effective Packaging

- Ship up to 11lbs/5kg damaged/defective in CellSafe pails, or use CellBlock Drums to ship up to 132lbs/60kg.
- NO inner packaging or terminal protection when instruction requirements are followed.
- Commingle DDR and non-DDR lithium-ion batteries.
- CellBlockEX may be recovered and reused.

Simple Implementation

- No Hazmat Code of Federal Regulation (CFR) training required.
- Seamless integration and logistics with strategic battery recycling and recovery partners.
- An off-the-shelf solution for shipping batteries under 300 Wh

Fire Suppression Powered by CellBlockEX®

There is only one CellBlockEX® – the **True Blue** dry fire-suppressant capable of halting thermal propagation in devices, batteries, or cells.

- Proprietary mineral suppressant
- Lightweight - approximately ¼ the density of sand
- Engineered functionality for Li-ion batteries fires
- Non-combustible and non-conductive
- Clean – zero toxicity or contaminants
