

Packaging for Damaged, Defective and Recalled Batteries and Devices

The CellSafe® Envelope Kit

Cost Savings + Incredible Protection in One Neat Little Package.

DOT SPECIAL
PERMIT 20910

CA EQUIVALENCY
CERTIFICATE SU 13920

The CellSafe® Battery Envelope Kit offers engineered protection from thermal runaways in a thin textile envelope. Perfect for consumer recalls, the reusable aspect of the envelope contributes to cost savings.

- **Green** and **reusable** packaging as part of your supply chain. The textile envelope may be reused numerous times throughout a volume recall. Only the outer box will need to be replaced.
- Rapid customization program to accommodate unique size and shape of tools, appliances and personal devices.
- DOT Special Permit 20910 and Equivalency Certificate SU 13920 authorized.
- **P911** and **P908** tested and compliant.
- Proprietary high-performance composite envelope has been 14 CFR tested and rated for 2000°F for 30+ minutes.

Simple Implementation

- No Hazmat Code of Federal Regulation (CFR) training required.
- Seamless integration and logistics with strategic battery recycling and recovery partners.
- Customized training/guide for personnel.
- Available in four standard sizes to accommodate laptops, tablets, phones, and other personal devices.
- Customize to accommodate batteries up to 185 Wh with nimble package prototyping and certification.

The Safest Reusable Recall Packaging on the Planet.
Perfect for Warranty Returns and Reverse Logistics.
