

LIBIK™ 10-POINT INSPECTION CHECKLIST

Disclaimer: This checklist is a general guide only. Inspection results and continued service decisions are the sole responsibility of the inspecting organization. For full terms and limitations, see the Disclaimer on page 6.

CellBlock Fire Containment Systems 234 Northeast Road, Standish, Maine 04084

Phone: 1-800-440-4119 Email: info@cellblockfcs.com Website: www.cellblockfcs.com

INSPECTION INSTRUCTIONS

- Perform this inspection at 5 years for standard units, then annually thereafter.*
- Perform filter replacement every 2 years for LIBIK-X filtered units
- If ANY item fails inspection, DO NOT return unit to service
- Contact CellBlock FCS immediately for failed items: 1-800-440-4119
- Complete online return form at: https://cellblockfcs.com/libik-recertification-request
- **CRITICAL:** If unit has been deployed in an actual lithium battery incident, remove from service and dispose of or return to CellBlock FCS for professional recertification. Do not perform this inspection.

DISCLAIMER

This inspection checklist is provided by CellBlock FCS as a general guide to assist organizations in evaluating the condition of their LIBIK® units for continued service. Because operating environments, usage conditions, and handling practices may vary, CellBlock FCS cannot guarantee that completion of this checklist will identify all potential issues affecting performance or safety.

The responsibility for conducting inspections, accurately recording results, determining the appropriate inspection frequency for a given environment, and making continued service decisions rests solely with the inspecting organization. This checklist is not a substitute for professional recertification, nor does it replace the requirement to remove from service any unit that has been deployed in an actual lithium-ion battery incident.

CellBlock FCS makes no representations or warranties, express or implied, regarding the adequacy or outcome of inspections performed using this document. In no event shall CellBlock FCS be held liable for any direct, incidental, or consequential damages arising from the use of this checklist, improper inspection, or continued use of a unit that is damaged, incomplete, or otherwise unfit for service.
