# A Safer Tool Kit for Fighting Lithium-ion Battery Fires

## The Protection You Need

CellBlock FCS offers the highest level of safety with these convenient EHS Kits. Augment your safety protocol with the tools you need to quickly extinguish a lithium-ion battery fire.

### Fire Shield Blanket

Provides an impervious barrier between the fire fighter and the burning device and increases the suppressive effect of the PED-Pad pillow.

- Constructed from incredibly robust fire proof fabrics that have undergone rigorous testing.

### PED-Pad Fire Suppression Pillow

Designed to be a quick and concise method of extinguishing a lithium-ion battery fire, while protecting the fire-fighter and reducing interaction time.

- Place over flame to release the inner **CellBlockEX**<sup>®</sup>, our industry trusted and proven extinguishing agent used for fighting lithium-ion battery and device fires.
- **CellBlockEX** is mineral-based, entirely environmentally-friendly and non-toxic.

### CellBlock High Heat Gloves

These durable, high-dexterity gloves are designed to protect the user when approaching overheating devices.

- Manufactured using composite textiles made to withstand extreme temperatures.

- LBKEHS01** Basic Lithium-Ion Battery Incident Kit  
Gloves, Standard Blanket, PED-Pad Pillow
- LBKEHSHW02** High Watt Hour Lithium-Ion Battery Incident Kit  
Gloves, High Watt Hour Blanket, PED-Pad Pillow

Convenient wall-mount bracket provided. Custom kits and configurations available.
