

Powerful Protection Against Battery Fires

Max Storage and Transport Case

CellBlock®
Fire Containment Systems

The Ultimate Insurance Against Lithium-ion Battery Fires

The CellBlock Max Case is a superior solution for the safe transport or storage of lithium-ion batteries and devices containing them.

Intelligent Design

- CellBlock High-temperature composite liner
- 360° Coverage by CellBlockEX
- Extreme durability
- Multiple configurations
- Internal battery support tray

Solutions for Your Toughest Challenges

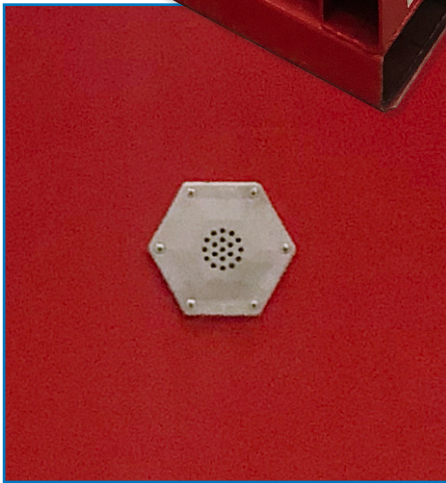

- Capable of accommodating large format batteries
- Inquire about custom sizes and configurations

Custom-fit fire-suppression cushions fill negative space to provide additional protection.

CellBlockEX gravity-fed extinguishing system in the lid. Rechargeable.

Four pressure relief filters eliminate smoke and fumes.

Add More Fire-Fighting Power

When stored energy numbers are high, add more fire-fighting capability with the addition of CellBlockEX. Available as either a loose-fill, or in reusable fire-suppression cushions, CellBlockEX is commonly used to fill space and increase the effectiveness of all our transportation and storage solutions.

CellBlockEX is a dry, green, and health-friendly material.
