

CellBlock Lithium Battery Recycling Program

The ONLY UPS Approved Package for over 300Wh DDR

Ship With Confidence.

CellBlock is Bundling Best-in-Class Special Permit Packaging with Sophisticated Reverse Logistics and Recycling Services.

The CellSafe® Recycling Program by CellBlock

leverages patented packaging designs which impart extreme battery containment to achieve unmatched regulatory relief.

Safe High Performance Packaging

- Powerful thermal runaway mitigation
- Built-in Suppression and explosion control

Relief from Regulations

- **NO** Hazmat training required
- **NO** Shipping papers
- **NO** Class 9 Labels

Economical

- **Ship parcel (UPS); no freight needed**
- Ship multiple DDRs per package
- Reusable packaging systems

EASY to Use

- Bundled kits with all required packaging materials, recycling, and prepaid UPS label included
- Available with or without recycling services
- Solutions for **EOL** (End of Life) and **DDR** (Damaged, Defective, Recalled) batteries
- Options for high energy batteries - over 300Wh

Recalls and Take-back Programs

Let CellBlock manage your recall with highly customizable and rapidly deployable programs:

- Kitting and fulfillment
- Reverse logistics
- Certified recycling
- **Reusable** packaging reduces your program costs
- One price

Shipping Fully Regulated?

CellBlock provides cost-effective and compliant special permit packaging systems to support your battery management goals:

- Ship multiple DDRs per package
- Unlimited watt hours

Beyond Compliance™

CellBlock's Special Permits provide unmatched safety coupled with convenience and measurable cost savings

DOT Special Permit 21442

- Ship >**300Wh**, including DDR
- 1800Wh limit per package
- No limit on battery weight
- Exemptions from training, paperwork, marking and labeling (49 CFR, subparts C through H of part 172)
- Ship multiple DDR batteries per package (exempt from 173.185 F)

DOT Special Permit 20549

- **300Wh** individual battery energy limit / 60Wh for cells
- No limit on aggregate energy
- Ship up to 11lbs / 5kg DDR in CellSafe pails
- Ship up to 132lbs / 60kg in CellBlock Drums
- Commingle DDR and non-DDR lithium-ion batteries
- NO taping or bagging inner packaging requirements
- Exemptions from training, paperwork, marking and labeling (49 CFR, subparts C through H of part 172)
- Ship multiple DDR batteries per package (exempt from 173.185 F)

DOT Special Permit 20910

- **185Wh** limit per package
- Highly customizable shape and size
- Multiple DDRs per package
- Highly reusable - ideal for device take-back programs
- Product cushioning and protection
- Multi-device mailer options
- Exemptions from training, paperwork, marking and labeling (49 CFR, subparts C through H of part 172)
- Ship multiple DDR batteries per package (exempt from 173.185 F)
